

Utixo

INNOVATIVE INTERNET SERVICES

# About us

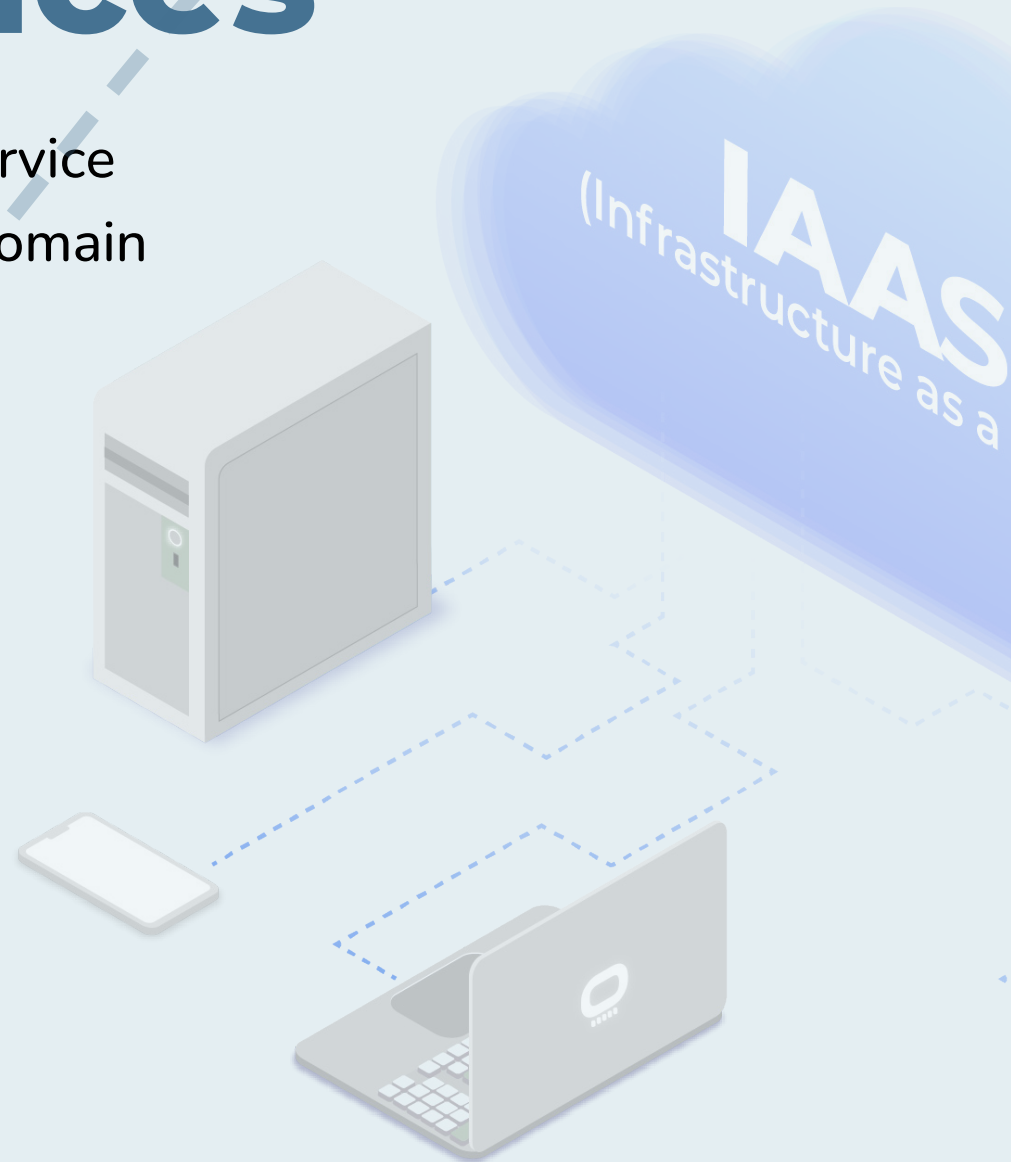

Utixo is an innovative cloud provider that provides companies with all IT infrastructure services in “as-a-service” mode, allowing them to optimize costs, improve data security and availability.

We are the ideal partner for the migration from on-premise mode of the IT system to cloud computing, including hybrid cloud and private cloud.

We therefore guarantee our customers the optimization of the IT system meaning flexibility, reliability and a better TCO.

# Our services

- IaaS: Infrastructure as a Service

# Our strenghts

Development of innovative services and products

Single partner for all cloud services

Guarantee of compliance with all regulations, in particular the GDPR

Advanced cybersecurity measures for data protection

# Innovation

Utixo's strength starts from the innovative UCMP platform (Utixo Cloud Management Platform).

It is a management and cloud automation interface that allows you to activate, manage, request assistance and automate all processes.

The system starts from a solid and proven international solution, on which we build a series of improvements with proprietary technologies.

# Cybersecurity

Utixo places cybersecurity at the center of its commitment, specializing and offering advanced solutions with a constant focus on data protection and compliance with the GDPR. Cyber security is a key priority and is proactively addressed in all of its aspects.

Technology investments, policies and rigorous procedures provide a safe and reliable environment for all of our customers, ensuring peace of mind in all their digital activities.
